

CLX 20

CRANE RAIL CLIPS

self locking cam adjustment

FEATURES

Patented system of the rubber pressure block installation prevents the escape of the pressure block from the rail clip during the life of the installation.

Typically the clip is installed with class **8.8** or **10.9** bolts, with threads in the shear plane, in single shear.

COMPONENTS INCLUDED

- upper rail clip
- rubber pressure block
- base

DIMENSIONS

CLX 20 Rail Clip	Height 1	26mm
	Height 2	51mm
	Length	65mm
	Weight	0.68kgs

CALCULATIONS

Rail	F: rail width	P: $F + (2 \times 70\text{mm})$	G: $F + (2 \times 38\text{mm})$	W: $F + 140\text{mm} + A$
Example: 41kg	127mm	267mm	203mm	287mm
Your rail: _____	____mm	____mm	____mm	____mm
