

# CLX 24

## CRANE RAIL CLIPS

self locking cam adjustment

### FEATURES

Patented system of the rubber pressure block installation prevents the escape of the pressure block from the rail clip during the life of the installation.

Typically the clip is installed with class **8.8** or **10.9** bolts, with threads in the shear plane, in single shear.

### COMPONENTS INCLUDED

- upper rail clip
- rubber pressure block
- base

### DIMENSIONS

CLX 24 Rail Clip	Height	50mm
	Length	65mm
	Weight	0.73kgs

### CALCULATIONS

Rail	F: rail width	P: F+(2 x 74mm)	G: F+(2 x 38mm)	W: F+148mm+A
<b>Example:</b> A45	125mm	273mm	201mm	293mm
<b>Your rail:</b> _____	____mm	____mm	____mm	____mm
