

CL4-20

CRANE RAIL CLIPS

self locking cam adjustment

FEATURES

Patented system of the rubber pressure block installation prevents the escape of the pressure block from the rail clip during the life of the installation.

Typically the clip is installed with class **8.8** or **10.9** bolts, with threads in the shear plane, in single shear.

COMPONENTS INCLUDED

- upper rail clip
- rubber pressure block
- base

DIMENSIONS

CL4-20 Rail Clip	Height 1	22mm
	Height 2	37mm
	Length	51mm
	Weight	0.32kgs

CALCULATIONS

Rail	F: rail width	P: F+(2 x 51mm)	G: F+(2 x 29mm)	W: F+102mm+A
Example: 41kg	127mm	229mm	185mm	241mm
Your rail: _____	____mm	____mm	____mm	____mm
